FIBER ART COLLAGE

with stacey coffee

Go on an adventure to create an original piece of textile art using raw-edged applique and a variety of techniques and materials! You'll learn what to think about when picking fabric, the importance of value and the role of gorgeous threads and mixed media in creating dimension to your finished project. She'll teach you how to design a pattern, transfer it to your muslin base and create realistic eyes using silk with a splash of assorted pens and paints. During this workshop, we'll break for mini-sessions on color theory and the visual effect of specific color combinations. You'll examine different collage styles, what makes each artist unique and how to find your own voice. We'll talk about many methods used to manipulate fabric and how to incorporate embroidery, sashiko stitching and embellishments into your finished collage.
